

ARMOS - PERAMA

The project was about the bay of Armos, located in the Municipality of Perama. Most of all, it was about the management of the existing natural bight for the construction and operation of the permanent fish market, after transferring all the fish boats from the neighbour mooring regions of the corresponding ships in the wider region of Perama.

Also there was forecasted the reformation and upgrade of the region with installations that promoted the region and appointed its use by the citizens, by:

- Fish market establishments
- Navigable restaurant supported from sailing marinas
- Reformation of existing outdoor cinema
- Management service for moored ships
- Play areas
- Lake
- Amphitheatre of cultural events
- Grass courts for football
- Spaces with pavilions for the pedestrians
- Commercial centres with: Spaces of quartering and access from the Demokratias Avenue.
